

## **Congratulations Speech for KOREATECH 30<sup>th</sup> Anniversary**

**from**

**Rajamangala University of Technology Lanna**

**President**

For the past 5 years, Korea University of Technology and Education (KOREATECH) and Rajamangala University of Technology Lanna have been working closely together in TVET Campus project. It is proved by many successful events that we have accomplished. Our students and staff have built a strong network and established a good relationship and remain in active contact despite difficulties regarding distance and pandemic circumstances.

KOREATECH is already the most prestige institution of higher learning in South Korea and recognized internationally as one of the foremost center of academic excellent in Asia especially in Science and Technology. Filled with the most outstanding executives and excellent personnel, KOREATECH plays as a key to the success of global education. The 30<sup>th</sup> year milestone clearly shows that KOREATECH has been working hard in order to produce excellent graduates and creating a stimulating educational environment, both for its students and its partner universities as well.

It is my sincere hope that we will work together closer than ever before in the years ahead for the benefit of not only us but for the good of the global community. We are grateful for your knowledge and experience shared to us and will continue to work with you in the future.

May I once again express my very best wish on behalf of RMUTL for continued achievement, success and prosperity of KOREATECH. Also, may this milestone be a crucial proof of your hardworking and success.

Thank you.
